to suit your lifestyle...

# Explore your possibilities with Origin.

Origin's precision-made, award-winning bespoke Bi-fold Doors and Windows bring more light, more style and more possibilities into any home, and with a wide range of colour options to choose from... They can open up even more.

Whether it be for a traditional or modern home, an Origin Bi-fold Door or Window is able to be manufactured in over 150 different RAL colours to ensure there's a style to suit every home.

Origin also offer the option of choosing a different colour inside and out, so it means that creating your own unique look is easy.

## Guaranteed to stay looking great.

When considering investing in a new door or window system, frame material and strength should be a huge consideration.

Aluminium is Origin's material of choice due to its strength, durability and longevity. Aluminium also brings the added benefits of being maintenance free, energy efficient and highly durable, meaning that it will not flex, warp or corrode in differing weather conditions.

In order to give it a flawless finish, the aluminium is covered with the highest grade powder coating available, applied using an electrostatic process after a special pre-treatment and cured at 200°C.

The powder coat finish is extremely hard-wearing and is resistant to scratches and colour fading for optimum longevity, and this is just one of the reasons why a product from Origin is guaranteed to look good for a long time... 20 years in fact!

# Our most popular colours...

Shown here are a few of our most frequently chosen colours.

Ranging from Hipca White to Jet Black and all of the popular shades in between, these colours are all available on our 'Your lead time, not ours' promise to ensure your Bi-fold Doors or Windows are delivered on time, whenever you choose.

Also included on this delivery promise are our ever popular wood grain finishes.

## Capture the natural effect of wood.

It looks like wood, it feels like wood, it has all the beauty of real wood, but with none of the maintenance, expansion or warping.

## How's it possible?

The secret's in the special heat transfer process.

The doors go through the powder coating process as usual, and are wrapped in a special film using a vacuum process for perfect adhesion.

They're then 'cured' in a high temperature oven, which transfers the inks on the film onto the base surface - in this case, creating a wood grain effect.

Once cooled, the film is removed to leave a finish that not only resembles genuine wood, but offers a 20 year guarantee for optimum peace of mind. And with minimal maintenance required, that's even better than the real thing.

*Hipca White (9910 G)*

*Dark Silver Metallic (9007 M)*

*Light Silver Metallic (9006 M)*

*Black Grey (7021 M)*

*Slate Grey (7015 M)*

*Anthracite Grey (7016 M)*

*Jet Black (9005 M)*

*Natural Oak*

*Mahogany*

*Golden Oak*

*Walnut*

# Be inspired by our colour collections...

Looking for the wow factor? Whether you want to make a dramatic design statement or perfectly match a particular room's mood, the colour chosen can be tailored to your home as much as the Origin Doors and Windows themselves.

So, if your taste runs past the subtle to the more outrageous, don't worry... Origin guarantee to have a colour available to make your Bi-fold Doors or Windows everything you've ever dreamt of.

To help with this choice, we've created 9 unique palettes, each featuring 10 shades on a particular theme.

Choose a colour that complements your décor or go for a bold contrast - the choice is yours. From Urban Chic via Beach Hut to Gentleman's Club, there will be a colour that truly suits your individual style.

Still can't find what you're looking for?...

# Bespoke colour range

Just a couple of highlights from each of our nine unique colour palettes.

## HERITAGE

Elegant, muted shades of pale cream, dusky greens and blues... Perfect for period properties.

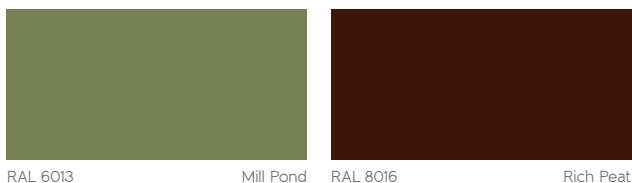

## POP ART

Bright, bold colours that make a real statement, reminiscent of the Pop Art era.

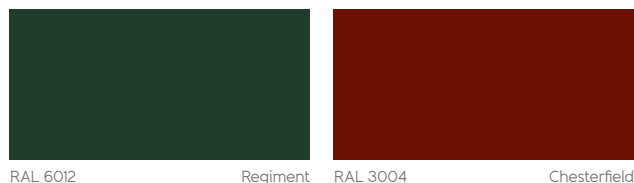

## NATURALIST

Deep, rich earthy colours inspired by the natural world.

## GENTLEMAN'S CLUB

Rich, jewel-like reds, greens and blues, evoking the interior of luxury private clubs from a bygone era.

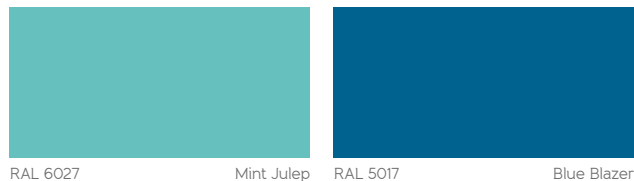

## BEACH HUT

Bright, fun pastel colours with a hint of a seaside resort and candy floss.

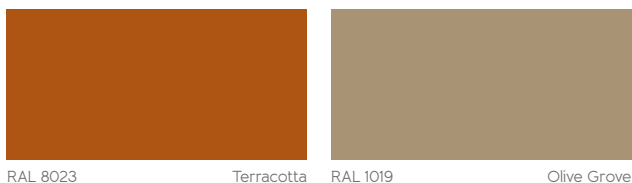

## THE HAMPTONS

Classic cool beach tones inspired by Ralph Lauren, bringing sophistication to a coastal vibe.

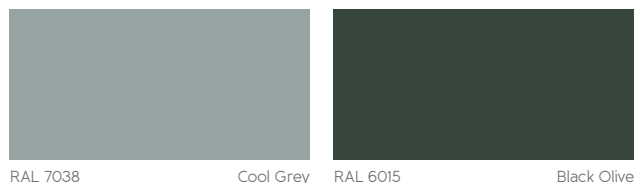

## TUSCANY

Warm terracotta tones of burnt umber, orange and browns, echoing the sun-baked roof tops of a Tuscan village.

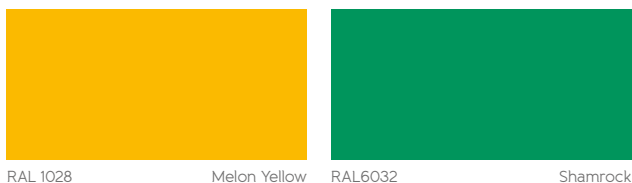

## URBAN CHIC

Steely utilitarian tones of greys and blacks for classic modernist architecture.

## RETRO

Bold colours from a classic era, with tones reflecting a 60's and 70's interior feel.
